## Interesting projects

### BENEFIT THE ELIIT PROJECT SUPPORT!

The aim of **ELIIT** is to promote European cooperation between **SMEs** from **textile, clothing, leather** and footwear (TCLF) industries and providers of novel technologies, to **promote the use of technology-ready solutions to improve productivity, value chain integration, resource efficiency and to create new high added-value products and services.**

**The public call for proposals has already been launched and it will close March 17th, 2020.**

ELIIT will select 25 partnerships between SMEs active in the TCLF sectors, and innovative technology owners or providers throughout the launch of different calls for proposals.

### GET TO KNOW THE BIOREFINERY GLAS PROJECT!

Over recent months, Biorefinery Glas, one of Europe's first small-scale biorefinery demonstration projects has been working with farmers in Ireland to show how new products and revenue streams can be created using a new farmer-centric bioeconomy approach.

The Biorefinery Glas project comes at a critical moment for both Ireland and the EU, with the Commission's proposal for the new Common Agricultural Policy (CAP) aiming to make a much stronger contribution to the sustainable development agenda.
