BIOVOICES

BIOVOICES

THE GOAL

BIOVOICES aims to promote the engagement between all relevant stakeholder groups and tackle bio-based related challenges by establishing a multi-stakeholder platform.

THE PATH

BIOVOICES will support pro-active discussion and co-creation among relevant stakeholders and will promote the direct engagement of citizens and society at large in a co-creation research and innovation process.

CIVIL SOCIETY (USERS):

General Public, School Students, University Students, Teachers and Educational Institutions, Citizens and Associations, NGOs and CSOs active in the bioeconomy field.

PUBLIC ADMINISTRATION:

Policy Makers, Public Administrations, Local Authorities, Municipalities.

BUSINESS:

Companies active in the bioeconomy field, Chambers of Commerce, Cultural Entities (museums, libraries, theatres, etc.)

RESEARCH AND EDUCATION:

Researchers, Research Centres and Universities active in the bioeconomy field.

THE BASIS

BIOVOICES platform will involve a plurality of actors with different perspectives, knowledge and experiences with the goal to animate an open dialogue and mutual learning between the different stakeholders.

THE IMPACT

BIOVOICES will increase the quality, the relevance, the social acceptability and the sustainability of research and innovation outcomes in bioeconomy.
